January 25, 2011

Dear Township Officials,

Thank you for visiting the Michigan Department of Agriculture Farmland Preservation exhibit at the 2011 Michigan Townships Association Annual Education Conference!

In this packet you will find information regarding the Farmland Development Rights Agreement (often referred to as PA 116) application process. Enclosed you will find a program brochure, Instructions for Local Governing Body for Completing an Application for a Farmland Agreement, as well as master copies of the Farmland Agreement Eligibility & Instructions and Application for Farmland Agreement for you to distribute to your landowners. Please note that the application form has been recently updated.

Local government is the first step in the application process, and we appreciate your efforts, and the efforts of your landowners, to preserve Michigan's farmland. Keep in mind, if your Township has zoning, your Township Board has the authority to accept or reject the applications. However, if your Township does not have zoning, the County Board of Commissioners has the authority and your Township will serve as a reviewing agency in that situation.

If at anytime you or your landowners have questions regarding the Farmland Development Rights Agreement application process, do not hesitate to contact our office. You can also visit our website at www.michigan.gov/farmland for program information, contact information, and to download brochures & blank forms.

Sincerely,

Teresa L. Shenwood, Resource Analyst

INSTRUCTIONS FOR LOCAL GOVERNING BODY 
FOR COMPLETING AN 
APPLICATION FOR A FARMLAND AGREEMENT

A. After a landowner completes his/her portion of an Application for a Farmland Agreement (in accordance with Part 361 of the Natural Resources and Environmental Protection Act, 1994, Act 451, as amended, more commonly known as P.A. 116), the landowner is to attach a copy of the most recent deed or land contract to prove current ownership of the property to be enrolled in the program, and a copy of a recent tax bill or tax assessment notice containing the legal description of the property. The landowner then is to take these application materials to the “local governing body” (see definition below) for local review and action.

B. The local governing body holding the application shall approve or reject the application within 45 DAYS after the application is received. It is the responsibility of the local governing body conducting the initial review (usually the township board, with actual handling done by the township clerk) to complete the bottom portion of page 3 of the application form. ALL APPLICABLE LINES/SPACES ON THE BOTTOM PORTION OF PAGE 3 ARE TO BE COMPLETED.

C. SECTION I, requires the local governing body’s name, date received, whether the application is approved or rejected, the date of approval or rejection, the clerk’s signature and seal (if applicable), and the current market value of the property in the application. IMPORTANT: If the application is approved on or before November 1st of a given year, the landowner is eligible for tax credits from the State of Michigan for that entire year. If approved after November 1st, the landowner is eligible for tax credits beginning the following year.

D. SECTION II, should be completed with either a date or check mark or “NA” for “not applicable.” For all applications, the reviewing agencies are the County or Regional Planning Commission and the local Conservation District. If the county is the local governing body initiating the review of the application, the township also becomes a reviewing agency. If the land in the application is within three miles of a city, that city becomes a reviewing agency. If the land is within one mile of a village, that village becomes a reviewing agency.

E. Reviewing agencies are to be sent a copy of the application by the local governing body (again, usually the township). At the very least, this includes the County or Regional Planning Commission and the Conservation District. A reviewing agency has 30 DAYS in which to review and comment on the application and provide comments to the local governing body. After the 30-day period, the local governing body can proceed with or without comments from reviewing agencies.
F. Upon receipt of an application, the clerk checks the application to see that it has been properly completed by the landowner. Next, the clerk ensures that the items listed under FINAL APPLICATION SHOULD INCLUDE on page 3, right side, near the bottom, have been enclosed with the application. If review letters have been received from any of the applicable reviewing agencies, the clerk should also enclose copies of those letters with the application. If no comments were received within the 30-day time period, the clerk should indicate such in some manner on the application when the application is sent on to the Farmland Preservation office.

G. After all the above is done and the portion FINAL APPLICATION SHOULD INCLUDE is completed (all applicable spaces are checked), the clerk is to send the ORIGINAL application to the Farmland Preservation office. It is recommended that a copy of the application be kept by the landowner and/or local governing body. The local assessor is responsible for providing current market value information regarding the application.

H. Finally, please note that each individual application should stand on its own, i.e., be fully completed with all appropriate documentation attached without regard to other applications by the same landowner that might have been submitted with it.

**Definition of local governing body:** For purposes of this program, the local governing body is defined as Killows. For farmland that is located in a city or village, the local governing body is the city or village. For farmland not located in a city or village but in a township having a zoning ordinance in effect, the local governing body is the township board. For farmland not located in a city or village and the township does not have a zoning ordinance in effect, the local governing body is the county board of commissioners. In most cases, the local governing body is the township board and the application then should be taken to the township clerk for township processing.
Please review the following eligibility requirements and instructions before completing an application for a Farmland Agreement.

If your farm (including the resilience and farm buildings) meets one of the following criteria, it is eligible for enrollment in the program under Part 361 of the Natural Resources and Environmental Protection Act, 1994 Act 451 as amended, more commonly known as PA 116.

1. As defined by the Act, agricultural use means: "The production of plants and animals useful to humans, including forages and sod crops; grains, feed crops and field crops; dairy and dairy products; poultry and poultry products; livestock, including breeding and grazing of cattle, swine, caprine cervidæ, and similar animals; bees; herbs; flowers; seeds; grasses; nursery stock; fruits; vegetables; maple syrup production; Christmas trees; and other similar uses and activities". Agricultural use includes use in a federal acreage set-aside program or a federal conservation reserve program. Agricultural use does not include the management and harvesting of a woodlot. As defined by the Act, farmland means:

   1. "A farm of 40 or more acres in one ownership, with 51% or more of the land area devoted to an agricultural use."

   2. "A farm of 5 acres or more in one ownership, but less than 40 acres, with 51% or more of the land area devoted to an agricultural use, that has produced a gross annual income from agriculture of $200.00 per year or more per acre of cleared and tillable land. A farm described in this subparagraph enrolled in a federal acreage set-aside program or a federal conservation reserve program is considered to have produced a gross annual income from agriculture of $200 per year or more per acre of cleared and tillable land."

   3. "A farm designated by the department of agriculture as a specialty farm in one ownership that has produced a gross annual income from an agriculture use of $2,000.00 or more. Specialty farms include, but are not limited to, greenhouses; equine breeding and grazing; the breeding and grazing of cervidæ, pheasants, and other game animals; bees and bee products; mushrooms; aquaculture; and other similar uses and activities."

   4. "Parcels of land in one ownership that are not contiguous but which constitute an integral part of farming operations being conducted on land otherwise qualifying as farmland may be included in an application under this part."

II. The administrative rules providing for the administration and implementation of the program further define the following:

   1. "Gross annual income means an average computed from two of the three tax years immediately preceding the year of application from the raising or harvesting of any agricultural commodities."

   2. Specialty farm means an enterprise of 15 or more acres in size which meets the income requirement and has been designated by the Michigan Department of Agriculture.

III. A farmland development rights agreement is a temporary restrictive covenant where the owner and the state agree to jointly hold the right to develop a parcel of farmland. The covenant is an agreement to not develop the property except as specifically stated within the agreement. The covenant runs with the land and is for a jointly agreed upon length of time (at least 10 years).

A farmland development rights agreement contains the following restrictions:

   1. A structure shall not be built on the land except for use consistent with farm operations, which includes a residence for an individual essential to the operation of the farm as defined under section 36110(5), or lines for utility transmission or distribution purposes or with the approval of the local governing body and the state land use agency.

   2. Land improvements shall not be made except for use consistent with farm operations or with the approval of the local governing body and the state land use agency.

   3. Any interest in the property shall be sold only for a scenic, access, or utility easement which does not substantially hinder farm operations.
4. Public access shall not be permitted on the land except with the permission of the owner.

5. Any other condition or restriction on the land as agreed to by the parties that is considered necessary to preserve the land or appropriate portions of it as farmland.

Instructions for Completing Farmland Agreement Application:

Please print or type in all spaces required on the application form.

PLEASE NOTE: The application form must be filed with the clerk of the local governing body having jurisdiction over the land cited in the application. Those local governing bodies having the right of approval or rejection of an application are defined by the Act as either: (a) the legislative body of a city or village; or (b) the township board of a township having a zoning ordinance in effect as provided by law; or (c) the county board of commissioners in all other areas.

SPECIAL SITUATIONS:

1. Owning more than one farm unit:
   To make it less complicated for an owner wishing to place more than one farm unit into the program, it is recommended that the owner fill out separate applications for each farm unit over 40 acres. If all of the forms will be submitted to one local governing body having approval authority, it is suggested that the applications be filed together at the same time.

2. Owning more than one farm unit located in different local governing bodies having approval authority:
   If the farm units fall under different local governing bodies having approval authority, it is suggested that the applicant attach a statement to each application indicating that more than one application has been filed by the owner and a list of the local governing bodies involved.

3. One contiguous farm unit having more than one legal description:
   Those owners having one contiguous farm unit with more than one tax parcel description (deed) for portions of the farm, but wishing to place the entire farm into the program, may attach copies of all the descriptions and fill out the application as if the farm was under one deed.

4. Having one farm unit located in different local governing bodies having approval authority:
   In the case of an owner having one contiguous farm unit which crosses the boundaries of more than one local governing body having approval authority, the applicant must file separate applications covering the land located in the respective local governing bodies jurisdictions and attach a statement indicating that more than one application has been filed by the landowner and a list of the local governing bodies involved.

5. Landowners need not apply for all their property. However, the landowner is responsible for furnishing an accurate legal description of land covered by the application. If the landowners wish to exclude some portion of a description, they must provide a description which excludes the acreage they desire to withhold.

An approved application is forwarded by the local governing body to the state land use agency for approval or rejection by the state.

An applicant receiving a rejection from a local governing body can appeal within 30 days of the rejection notice to the state land use agency for a decision, or the applicant may wait one year and reapply for enrollment in the program.

1. Personal Information:
   (1-5) Owner is defined by the Act as a "person having a freehold estate in land coupled with possession and enjoyment". "Person", as defined in the Act, includes "an individual, corporation, limited liability company, business trust, estate, trust, partnership, association or 2 or more persons having a joint or common interest in the land"

   If more than one name is involved (excluding husband and spouse), please attach additional sheet listing necessary names and information required in blanks 1 through 5.

   Only the owner(s) of land cited within the application may apply to enroll land into the program.

   Married persons filing either a joint or separate Michigan state income tax return must indicate Social Security numbers.

   The federal employee identification number is applicable only to those corporations, sub-chapter S corporations, partnerships or individuals who must withhold taxes for their employees.
II. Property Location:

(6-8) The applicant must indicate the county and township, city or village where the land cited in the application is located. The section number, town number and range number can be found on the deed to the land.

III. Legal Information:

(9) The applicant must attach a clear copy of the deed from the county register of deed’s office. Land contract purchasers should send a copy of the land contract or memorandum of land contract.

(10) The applicant must attach a copy of the most recent property tax assessment notice or tax bill including a complete tax description of the property. Land contract purchasers who do not receive a property tax assessment notice or tax bill may obtain a copy from the assessor.

(12) Mineral rights would include oil, gas, coal, iron ore, gravel, etc.

(13) Any land subject to a rental or lease agreement not directly associated or consistent with farm operation is prohibited from being included in the program. Examples which must be excluded are: a second residence being rented to someone not connected with the farm operation; land being used as parking or storage for materials not associated with that particular farm operation, a leased landing strip, etc.

(14) The Act states that “where land is subject to a land contract, it means the vendor (seller) in agreement with the vendee (purchaser).” Whether the applicant is the seller or the purchaser, the applicant must have the consent of the other party to place land subject to a land contract into the program.

(15) This section of the application is only applicable to those owners who fall within the described categories for income tax information. If you are the sole owner not fitting any of the listed categories, please go on to the next section, leaving (15) blank.

IV. Land Eligibility Qualifications:

If the land cited in the application is:

(a) a farm of 40 acres or more, complete only section (16);

(b) a farm of 5 acres or more but less than 40 acres, complete only sections (16) and (17); or

(c) a specialty farm, complete only sections (16) and (18). These sections provide information for determining if the land cited in the application is in agricultural production and the general types of uses on the farm.

(16) If your farm is 40 acres or more, please fill out section (16) and then go to V. Signature.

(17) If your farm is 5 acres or more but less than 40 acres, please fill out both sections (16) and (17) and then go on to V. Signature. The information required in section (17) is mandatory by definition of the Act.

(18) If your farm is a specialty farm, please fill out sections (16) and (18) and then go on to V. Signature. The information required in section (18) is mandatory by definition of the Act.

Please diagram to the best of your ability the farm and acreage being applied for enrollment in the program. Please indicate residence(s), farm buildings, roads, property boundaries, and natural or man-made features such as lakes, ponds, swamps, streams or rivers, woodlots and gravel pits. This is a map of your farm and can be drawn by you. It does not have to be professionally drawn, but we would ask that it be as legible as possible.

V. Signature:

If more than one owner is involved, or the applicant is a corporation, either all owners’ signatures or a signature (and title) representing all owners must appear on the form. The date must be indicated at the time the signature is affixed to the application form.

Wind Turbines on Land Enrolled in a PA 116
Part 301, Act 451 of 1994 as amended (MCL 324 361101)
October 7, 2008 (DRAFT)

Wind Turbines may be placed on land currently enrolled in PA116 provided that specific conditions are met. Options are available for Farm ownership of wind turbines, second party ownership, and for withdrawal of the land from PA116 for public utilities.

1) Personal Ownership: A wind turbine for “personal use” by the farmer or by a person considered to be essential to the farming operation as defined in statute (324.36110(5)) may be placed on enrolled farmland. The wind turbine would be considered part of the farming operation and permitted as such. A wind turbine is considered to be for personal use if its installation and operation meets any of the three following conditions:
   a. the wind turbine is not connected to the public utility system and produces energy solely for use on the farm, or
   b. the landowner maintains a valid interconnection agreement with a participating public utility, but the primary use of the turbine is for self-service power (as defined in MCL 460.10a(13)),
   c. the landowner maintains a valid interconnection agreement with a participating utility, and the landowner is participating in a net metering program that is approved by the Michigan Public Service Commission.

2) Second Party Ownership: Wind turbines may be placed on the enrolled land by persons other than the landowner via an easement or lease if the following four conditions are met:
   a. The wind turbine must be placed by a public utility or the turbine owner must maintain a valid interconnection agreement with a public utility to connect to the public utility system, and
   b. The Michigan Department of Agriculture must find that the location of the facility, and ground changing features associated with the wind generator, do not substantially hinder the farming operation, and
   c. The facility and placement of the wind turbine must be approved by the unit of government having zoning authority, and
   d. The landowner/PA 116 Agreement holder must agree with the placement of the facility.

3) Withdrawal: The land being used for a wind turbine may be removed from the program if:
   a. The wind turbine is being constructed by a public utility or the turbine owner has an interconnection agreement with a public utility, and
   b. The landowner has submitted an application for removal of the land from the PA116 program to the local unit of government having zoning authority and the application has been approved by both the local government and Michigan Department of Agriculture, and
   c. The portion of the last seven years of PA 116 tax credits attributable to the parcel being released have been repaid to the Department.

For Reference: MCL 324.34110(5) Essential to the farm
(5) As used in this section, “individual essential to the operation of the farm” means a co-owner, partner, shareholder, farm manager, or family member who, to a material extent, cultivates, operates, or manages farmland under the act. An individual is considered involved to a material extent if that individual does 1 or more of the following:
   a. Has a financial interest equal to or greater than ½ the cost of producing the crops, livestock, or products and
   b. Works 1,040 hours or more annually in activities connected with the production of the farming operation.

For Reference: MCL 460.10a(13) Self Service Power
(13) This act does not prohibit or limit the right of a person to obtain self-service power and does not impose a transition implementation, exit fee, or any other similar charge on self-service power. A person using self-service power is not an electric supplier, electric utility, or person conducting an electric utility business. As used in this subsection, “self-service power” means any of the following:
   a. Electricity generated and consumed at an industrial site or contiguous industrial site or single commercial establishment or single residence without use of an electric utility’s transmission and distribution system.
   b. Electricity generated primarily by the use of by-product fuels, including waste water solids, which electricity is consumed as part of a contiguous facility, with the use of an electric utility’s transmission and distribution system, but only if the point or points of receipt of the power within the facility are not greater than 3 miles distant from the point of generation.
   c. A site of facility with load existing on June 5, 2000 that is divided by an inland body of water or by a public highway, road, or street but that otherwise meets this definition meets the contiguous requirement of this subdivision regardless of whether self-service power was being generated on June 5, 2000.
   d. A commercial or industrial facility or single residence that meets the requirements of subdivision (a) or (b) meets this definition whether or not the generation facility is owned by an entity different from the owner or the commercial or industrial site of single residence.
