

(Date Sent), 2011

Dear (your township official's name here),

My name is (your name here) and I am a resident of (your township name) Township. I am writing to you to express my concerns about the industrial wind turbine complex proposed for our area and to request that you take action to protect your constituents.

As you are aware, there is a considerable amount of research available concerning the potential impacts of industrial wind turbines upon the health, safety and welfare of people living nearby. I am very concerned that my family's health could be impacted by the construction of improperly sited industrial wind turbines in (your township name) Township.

In addition to the aforementioned health concerns, research has also indicated that industrial wind turbines can have a very significant impact upon residential property values. In light of the significant value losses that homeowners throughout our region have recently incurred, we simply cannot afford any avoidable decrease in our property values.

There are a number of other issues associated with industrial wind turbines as well, such as shadow flicker, TV signal degradation, road damage and farmland destruction. Many of these issues can be resolved, or their impact minimized, through strong, enforceable regulations regarding the location and operation of industrial wind turbines.

In order to provide sufficient safeguard for (your township name) Township residents from the potential harms of improperly sited industrial wind turbines, I respectfully request that (your township name) Township enact strong, enforceable regulations of industrial wind turbines, including:

- (1) 1 mile setback from the outer radius of an industrial wind turbine to the property line of a non-participating parcel;
- (2) 35 dBA noise limit measured at the property line of a non-participating parcel;
- (3) Prohibition against projecting shadow flicker upon a non-participating parcel;
- (4) A requirement that industrial wind developers offer a Property Value Guarantee to all homeowners located within five (5) miles of an industrial wind turbine.

The construction of an industrial wind turbine complex will alter the landscape of our region for decades to come. Please ensure that everyone in (your township name) Township is protected from the potential harms of improperly sited industrial wind turbines.

Sincerely,

(Your Name Here)
